IDSA was founded to study major issues affecting India's national security. Later on, it expanded the scope of its activity to include strategic studies and issues of international security. The institute has evolved to become a think tank that provides input to the policy-making process of the nation. IDSA's main focus is on India's security concerns, both within its periphery as well as on global issues that have a direct bearing on its security and international relations. The institute is engaged in various academic exchanges and Track II dialogue processes. The

**Inter-American Dialogue (IAD)**<http://www.thedialogue.org>

IAD was founded as an ad-hoc conference under the auspices of the Aspen Institute, with the goal of bringing together leading citizens to set a new inter-American agenda, in response to the breakdown in inter-American communications and to the inaccessibility of US leaders to democratically oriented Latin Americans. It became a fully independent institution in 1993. Its goals are to become more inter-American, to ensure effective communication with leaders across a broad spectrum of activities, and to further strengthen its committed and diverse membership.
